

## INCREDIBLE PREDATORS

**Opens in IMAX® at TELUS World of Science – Edmonton  
Friday, October 6, 2017**

**Edmonton, AB – Monday, October 2, 2017** – The hunt is on. Discover the world of supreme predators and the remarkable strategies they use to succeed. *Incredible Predators* opens in IMAX at TELUS World of Science – Edmonton this Friday, October 6, and features the most iconic hunters on Earth, from polar bears, cheetahs and leopards, to blue whales, Darwin’s bark spiders, and even the chameleon.

Through stunning cinematography, you’ll follow right alongside these remarkable creatures as they hunt – on land, under the sea, and in the air. As you begin to appreciate their challenges for survival, you’ll sympathize with a mother-cheetah who works tirelessly to hunt impala in order to feed her cubs, or a desperate polar bear who must catch the ever-elusive seal, or risk starvation.

Audiences will embark on a journey of survival, as they take a detailed look at the remarkable strategies the planet’s top hunters use to succeed. Advanced filming techniques put the audience right beside the predators as they hunt and focuses on the immense effort hunters must use in order to survive. In fact, most hunts end in failure for the predator. This is why they are the hardest working animals on the planet. To have any hope of success they must be at the very top of their game.

Don’t miss *Incredible Predators* in IMAX at TELUS World of Science – Edmonton. Opens Friday, October 6. Visit [twose.ca/predators](http://twose.ca/predators) for tickets and showtimes.
