

Hey Teach, Welcome Back!

With a new school year comes a new team! My name is Andrea Brickwood and I'm the interim Manager of School Programs at TWOSE. Due to numerous maternity and parental leaves within our department, I'm proud to be transitioning into this new role as Manager of School Programs and to lead our mostly new School Programs team into this school year.

We have a lot of new programs this year – many of which are featured here in EUREKA! – and many more to be revealed in the coming months. Keep an eye to your inbox, as EUREKA! will always feature the most up-to-date TWOSE news. Of course, our website is always an incredible resource as well. By now, you should even have a shiny new, hard copy edition of the TWOSE School Program Planner waiting for you in your classroom mailbox. Check out the TWOSE School Program Planner, and keep an eye on our website, for all of the exciting opportunities we're looking forward to offering your students in 2016-17.

A little about me:

1. I love teaching. I'm one of those people who played "teacher" with my stuffed animals as far back as I can remember. I've been in education for over 15 years. I started out teaching in Japan and then moved on to teaching theatre and drama for students from ages 3 to adult. I've been a classroom teacher and I've been in Science Education for the past 5 years.
2. My first degree is a BA in Theatre from the University of Winnipeg, so I worked as an actor for a while after I graduated. Bringing my love of theatre and teaching together, I started teaching at theatres in my hometown of Winnipeg. This is where my love of hands-on, experiential learning really began.
3. My background in theatre is a perfect tie to what I do now. I know what a difference experiential learning can make with students. Sitting and listening to someone tell them something is so different than them getting to experience it themselves. This is why I'm so passionate about what we do here at TWOSE!

Angry Birds Universe Opens October 8, 2016

Let your students explore this interactive, educational and extremely hands-on exhibition. And this year we've made it easier for you and your students to enjoy our feature exhibitions as they are included in your admission price.

Our school programs team has created special programming (suitable for all Grade levels) to accompany the exhibition to help ensure your students get the most out of their visit. Visit our [Angry Birds for](#)

September 2016

Mark Your Calendar:

Wednesday, September 7:
FREE Teacher Preview of
**Journey of Global
Soundscapes: Mission to
Record the Earth**

Monday, September 26: French Day
at TWOSE!

Tuesday, October 11: FREE Teacher
Preview of **Angry Birds Universe**

Monday, October 17: **Real People,
Real Science event** - Dr. Seth

Schools webpage for more information.

Pro-tip: Choose an *Angry Birds Universe* special School Program when you opt for the **Teacher's Best Value** field trip package.

Want a sneak peek? Attend the Teacher's Preview!

The Angry Birds Universe Teacher Preview is Tuesday, October 11. Call the Bookings Office at 780-451-3344 to reserve your spot!

French Day at TWOSE: September 26, 2016

In partnership with the **Fish Eye Project**, we'll be hosting a Live Dive entitled "La Fabuleuse Remontée du Saumon," presented in French, at 11:30 a.m. in the IMAX Theatre.

This is a chance for you and your students to go beneath the surface of the river to witness first-hand the fall salmon run. This program is included in Building Admission (\$9.00/student), and will be played on our giant IMAX screen for a truly immersive experience!

Add a planetarium show to your day for just \$3.50/student and catch a French planetarium show at 10:30 a.m.: "*Deux petits morceaux de verre - le télescope fantastique*" (*Two Small Pieces of Glass*).

End your day with one of our newly-revamped Science Demonstrations -- performed in French of course -- at 1:30 p.m. on the Science Demo Stage! (Note: Science Demos are now included in Building Admission)

Call the Bookings Office at 780-451-3344 to reserve your spot! Join us as we celebrate TWOSE's first-ever French Day!

For more information about TWOSE's French Programs visit twose.ca/frenchprograms.

2016 Real People, Real Science Days

Monday, October 17: Dr. Seth Shostak from the SETI Institute will be in the building to talk about the search for life on other planets, or alien planets themselves! Stay tuned for details as they become available.

Wednesday, October 26: Chem Fest for Grades 7-12. Join us as we bring real-world chemistry to TWOSE. Chem Fest will include chemistry demonstrations, displays from community partners, as well as hands-on activities to test students' chemical knowledge.

Chem Fest Bookings Available:

- 9:30 a.m. to 11:30 a.m. or;
- 12:00 p.m. to 2:00 p.m.

Cost: \$11.50 per student (includes Building Admission, Chem Fest activities, all Science Demonstrations and access to the [Angry Birds Universe](#) exhibition.)

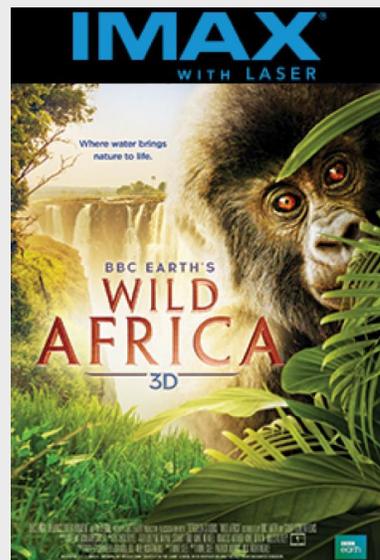

Add a program or planetarium show for just \$3.50 per student!

To book a Real People, Real Science event please call our Bookings

Shostak from the SETI Institute.

Wednesday, October 26: [Real People, Real Science](#) - CHEM FEST

IMAX Theatre

From the highest snow-covered mountains in Kenya, along great rivers, into steamy rainforests and wide-open savannahs, Wild Africa 3D reveals the striking contrast of stunning deserts beside wild oceans and the sunlit abundance of the coral reefs. Water, the interconnecting force of this kingdom, serves as a guide, shaping wild Africa and conjuring up life wherever it journeys.

Margaret Zeidler Star Theatre Planetarium

***NEW! Science Demonstrations are now included in Building Admission!**

We've now made it easier for you and your students to watch one, or all, of our thrilling new science demos!

We've revamped the entire Science Demo line-up to showcase the most exciting, thrilling and sometimes dangerous experiments possible.

Science Demos will run five times daily and will cover numerous curriculum topics. Visit twose.ca/schooldemos for Science Demo descriptions and schedule.

Immerse your students in a race to return to the Moon, 40 years after the historic Apollo landings. See how a competition among privately funded international teams is ushering in a new era of lunar exploration. Learn about the Moon's resources and discover what humanity's future on the Moon might hold.
