

Welcome to a New Year, teachers!

Happy New Year! The Science Centre has an amazing lineup of fun, learning opportunities for 2018 we think you'll enjoy.

To see some of the exciting options yourself, you are invited to a **Teacher Takeover on Thursday, February 22**: This is your chance to check out all that the science centre has to offer - for free - before taking your students on a field trip. Beginning at 4:00 p.m. on February 22, you and your fellow teachers will have access to both feature exhibitions: [POPnology](#) and [Terry Fox - Running to the Heart of Canada](#). You'll also be treated to a special screening of [Amazon Adventure](#), and will have the opportunity to meet our School Programs team, to ask questions and provide feedback.

Reserve your spot today by calling 780-451-3344.

More about our 2018 Feature Exhibitions:

[POPnology](#), opens on Friday, February 9 and is here until May 6.

Students will become bona fide POPnologists as they study how films, books, television and art have inspired real-world modern technology. POPnology is an interactive and engaging exhibition, with an emphasis on how science and technology impact society, and how technology can be used in problem solving. Along the way, students will see the world's first 3D-printed car, experiment with virtual reality, come face-to-face with the DeLorean Time Machine and Hal 9000.

For more information visit twose.ca/popnology.

[Terry Fox - Running to the Heart of Canada](#), opens on Friday, February 16 and is here until September 16.

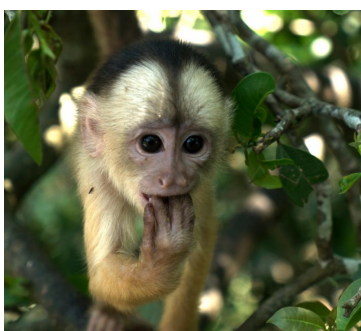

Students will get to know one of Canada's most beloved heroes, as they get an in-depth look at Terry's epic 143 day journey, across 5,373 kilometres, from St. John's, Newfoundland, to Thunder Bay, Ontario. The exhibition features a wide array of artifacts and archival materials, displayed together publicly for the first time. Among these treasured items are Terry's journal and artificial leg, as well as press clippings and media interviews.

For more information visit twose.ca/terryfox.

BOOK TODAY!
Fill out the [Online Request Form](#) or
Call 780-451-3344.

New IMAX Films:

No school field trip is complete without seeing an educational IMAX film on Alberta's largest screen!

[Amazon Adventure](#) opens
Friday, January 19.

Amazon Adventure tells the epic, true story of explorer Henry Bates' fascinating 11-year journey through the visually stunning and biodiverse Amazon rainforest in the 1850s. Students will uncover the compelling clues that lead Bates to his major discovery: the phenomenon of mimicry, and discover mind-boggling examples of camouflage.

For more information visit twose.ca/amazonadventure.

Pandas opens Friday, April 20.

Naturalist Ben Kilham becomes the unlikely key to solving one of the most pressing issues in conservation: saving the Giant Panda. Students will follow Kilham's journey, as he launches a bold new project preparing captive-bred panda cubs to leave their coddled world behind, and set off on a wild adventure in the snowy mountains of Schuan.

Scholarship Opportunity for Students:

Every summer we have the privilege awarding scholarships to a group of eager kids with a passion for science, thanks to TELUS World of Science - Edmonton's VEGA Scholarship program.

If you have a student with a keen interest in attending 2018 Science or Computer Summer Camp at the science centre, please send them to twose.ca/vega, where they can fill in an [Online Application Form](#), and submit a 100-word essay answering the question: **How do you use science every day?**

Application form and 100-word essay must be received by 5:00 p.m. on Tuesday, February 23, 2018.

Help us spread the word about this amazing opportunity! [Print this poster](#) and display it in your classroom or staff lounge!

Mark Your Calendars for these upcoming [Real People, Real Science](#) events:

Math Fest is Wednesday, March 14 & Thursday, March 15.

We'll bring math concepts to life for your students. With more than 20 stations of interactive math activities and games, your students will be completely immersed in learning math skills, all while having fun! Spots are going quickly, so reserve today to avoid disappointment.
Call 780-451-3344.

Space Day (Yuri's Day) is Monday, April 16.

Embark on an exploratory journey of the universe as we celebrate Yuri Gagarin, the first man in space! Students will discover what it takes to make it to space, how we know what's out there, and what's on the horizon. Weather permitting, your students will observe the daytime sky through a telescope at the RASC Observatory.

For more information visit twose.ca/realscience.

BOOK TODAY!
Call 780-451-3344.

Special Offer: Did you know... you will receive \$2.00 off per student when you book [Journey of Global Soundscapes: Mission to Record the Earth](#) in IMAX and pair it with ["Make A Sound"](#) (Grade 3 program).
