Escape to a Tropical Paradise this Winter
CUBA: Journey to the Heart of the Caribbean opens in IMAX®
at TELUS World of Science – Edmonton

Edmonton, AB – Wednesday, January 30 – Discover Cuba's vibrant culture, magnificent architecture, breathtaking landscapes, lively music and more when you see *CUBA* in IMAX, opening this Friday, February 1.

CUBA tells the powerful story of a land preserved in time, yet poised on the cusp of dramatic change. Told through the eyes of Cuban artists, historians, and scientists, audiences will embark on an adventure into the history and spirit of this vivacious island nation.

Dance through the spirited streets of Havana, dive beneath the ocean's surface to flourishing coral reefs, and experience an exuberant lifestyle.

As part of the Opening Weekend festivities, we'll also host the following *CUBA* inspired science activities on Saturday, February 1 and Sunday February 2:

- **10:45 a.m. to 11:15 a.m.** – Join us for a game of Coral Tank Eye Spy. How many sea creatures can you identify?
- **12:15 p.m. to 1:00 p.m**. – Help scientists with their research in our Coral Reef Citizen Science project. We'll be identifying different Coral Reefs via photographs.
- **1:30 p.m. to 3:00 p.m.** – Build your own version of a thriving Coral Reef with LEGO.

CUBA: Journey to the Heart of the Caribbean opens Friday, February 1, with daily showtimes.
