

BOATS & FLOATS MATERIALS LIST

Description

In this virtual program, students will discover what floats and what sinks. You may be surprised! This program will be accompanied with an additional TELUS World of Science-Edmonton Maker Monday video to help students build their boats upon completion of the virtual portion of the program.

Teacher Required Materials:

- Aluminum foil (1 or 2 sheets per student)
- Milk carton or plastic bottle (1 per student)
- Tape (masking or duct)

Teacher optional Materials:

- Plastic grocery bags
- Popsicle sticks
- Glue
- Plastic cups
- Straws
- Other common craft supplies, etc.
- Marbles or other heavy objects for “load”

Materials supplied by TELUS World of Science - Edmonton:

- Maker Monday video: <https://videos.telusworldofscienceedmonton.ca/en/c/tin-foil-boats-challenge-1.309>
