

JAMES CAMERON – CHALLENGING THE DEEP Exhibition
Canadian Premiere at
TELUS World of Science – Edmonton

EDMONTON, AB – Sept. 8, 2021 – *JAMES CAMERON – CHALLENGING THE DEEP* will be making its Canadian premiere at TELUS World of Science – Edmonton on Nov. 6, 2021. The exhibition will take guests on a journey through acclaimed explorer and award-winning film-maker James Cameron’s extensive career as a deep-sea explorer and his many history-making expeditions, uncovering the mystery of our oceans. Edmonton is the first in North America to include the *DEEPSEA CHALLENGER* submersible and pilot sphere with the exhibition.

“We’re thrilled to be the first in Canada to host *JAMES CAMERON – CHALLENGING THE DEEP*,” said Alan Nursall, President and CEO, TELUS World of Science – Edmonton. “This feature exhibition will ignite Edmontonians’ and Albertans’ curiosity to experience deep ocean exploration in a way they haven’t before.”

Guests will experience James Cameron’s deep-sea expeditions first-hand, including his record-breaking dive to the deepest point in our oceans in his *DEEPSEA CHALLENGER* submersible. The immersive exhibition features a rich audio and visual experience where guests will learn about the science, technology, and innovation required to explore our oceans’ floors.

More exciting exhibition components include:

- The *DEEPSEA CHALLENGER* submersible and pilot sphere.
- Props and costumes from the blockbuster movie *Titanic*.
- Cinema-scale projections, artifacts and technology developed by Cameron for his eight deep ocean expeditions.
- Original miniatures, artist's maquettes, Cameron's specially engineered diving helmet and underwater communication on the innovative underwater feature, *The Abyss*.
- *Titanic*, *Deepsea Challenger*, and *Bismarck* touchscreen interactives.
- And more!

The Science Centre will also be playing James Cameron’s *Deepsea Challenge* film in IMAX® throughout the exhibition’s run.

Tickets are on sale now! For more information about the exhibition and to buy tickets, visit www.twose.ca.

A media advisory for an exclusive media event will be circulated closer to the exhibition opening.

JAMES CAMERON – CHALLENGING THE DEEP is a traveling exhibition produced by the Australian National Maritime Museum, in association with the Avatar Alliance Foundation and is toured internationally by Flying Fish.
