

TELUS World of Science – Edmonton REOPENING on Saturday, February 1, 2025

EDMONTON, AB — January 30, 2025 — TELUS World of Science – Edmonton is thrilled to announce its reopening on Saturday, February 1 at 9:00 a.m. The Science Centre is over the moon to welcome guests and friends back for hands-on discovery and exploration.

The temporary closure was due to a fire in one of the mechanical room units on January 20. Extensive restoration cleaning has been completed throughout the building, and the Science Centre has passed its environmental testing and cleared for reopening.

Moving forward, the Science Centre will be open daily from 9:00 a.m. to 5:00 p.m.

While most of the Science Centre will be ready for action, the *Health Zone* gallery and Syncrude Science Stage will remain closed temporarily. However, guests can enjoy exciting pop-up experiences:

- **Health Zone Pop-Up Lab:** Dive into hands-on interactive activities exploring the incredible science of the human body, sparking curiosity and fun for all ages.
- **Syncrude Science Stage Pop-Up:** Experience jaw-dropping live demos on the lower level that will ignite imaginations and curiosity.

“We’re so excited to reopen and welcome our community back to experience the joy of science,” said Constance Scarlett, President and CEO of TELUS World of Science – Edmonton. “Our team has worked hard to ensure a safe and engaging environment for everyone, and we can’t wait to see the smiles and hear the gasps of amazement as guests return.”

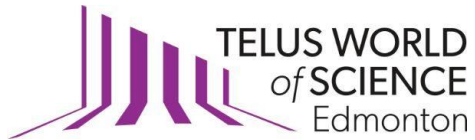

In addition to regular programming, the Science Centre has an exciting line-up of events over the coming weeks to help celebrate our reopening, including a presentation by Canadian Space Agency astronaut Joshua Kutryk on February 6, an evening of Taylor Swift themed food, drinks, karaoke – and of course, science, on February 13, and a weekend full of programming over Family Day long weekend.

TELUS World of Science – Edmonton foundation members, staff and volunteers, thank everyone for their patience and understanding and look forward to making February a month to remember.
