

Sniff out Dogs! A Science Tail at TELUS World of Science – Edmonton

EDMONTON, AB — December 17, 2025 — TELUS World of Science – Edmonton is excited to announce its next feature exhibition *Dogs! A Science Tail* exhibition opening May 2, 2026. This family-friendly and highly interactive experience invites guests to sniff out the science behind how dogs think, communicate, and sense the world around them.

“Many of us share an incredible bond with our dogs, and *Dogs! A Science Tail* brings that connection to life in a whole new way,” said Constance Scarlett, President & CEO of TELUS World of Science – Edmonton. “Through playful, immersive experiences, guests explore how dogs think, communicate, and evolve—delivering hands-on science that sparks curiosity and deepens our appreciation for our four-legged friends.”

The variety of hands-on activities guests can engage in include:

- training a virtual dog to follow commands
- clocking their running speed against the world’s fastest dogs
- excavating replicas of actual fossils to determine if they belong to wolves or dogs
- walking an invisible dog through a neighbourhood maze
- playing a special game of “pup culture” Jeopardy
- exploring various careers that involve these intelligent animals.

Guests are also invited to record their own stories of special dogs and proudly share puppy pictures in the exhibition photo gallery. This is a unique opportunity for guests to see how dogs have nuzzled their way into human society and into our hearts as loyal companions and life-saving heroes. After visiting, guests will never look at dogs the same way again.

Tickets available at twose.ca/dogs.
