

Fall for *Penguins: A Love Story* in IMAX opening February 14 at TELUS World of Science – Edmonton

EDMONTON, AB — February 5, 2026 — Penguins are about to steal hearts at TELUS World of Science – Edmonton when *Penguins: A Love Story* opens in IMAX® 3D on Valentine’s Day, as part of the film’s global release. This heart-warming documentary takes viewers around the globe, from the beaches of South Africa to the coasts of Australia, to discover the surprising love lives, family bonds, and resilience of some of the planet’s most beloved birds.

Made for IMAX theatres, *Penguins: A Love Story* delivers breathtaking visuals, immersive sound, and unforgettable characters that bring science and emotion together. It’s a perfect cinematic experience for all ages, from families and first-time IMAX guests to nature and wildlife lovers.

“*Penguins: A Love Story* is a joyful celebration of connection, resilience, and the fascinating science behind how penguins bond, communicate, and survive,” said Constance Scarlett, President & CEO of TELUS World of Science – Edmonton. “We’re thrilled to present such a fun, feel-good film with real heart, and our guests are going to love getting to know these incredible animals.”

Audiences will meet Lenny, an African penguin navigating predators, rival singers, and stormy seas in his search for a lifelong mate at Boulder Beach in South Africa. And they will cheer for Fluffball, an orphaned penguin chick learning to swim, hunt, and survive with the help of a devoted human caretaker at a penguin hospital.

While filled with playful moments and laugh-out-loud charm, *Penguins: A Love Story* also highlights critical conservation challenges facing penguin populations worldwide. By blending science, storytelling, and stunning cinematography, the film shines a spotlight on two critically endangered penguin species and the innovative efforts helping protect them.

Tickets and showtimes available at twose.ca/penguins.
